SHAURYA ZANWAR

+91 7972599667 • shauryazanwar1@gmail.com • Chhatrapati Sambhajinagar, Maharashtra, India

SUMMARY

IB Diploma student pursuing civil engineering, with construction internships, structural-vibration research, and experience designing fitness hardware. Founder of MAXUS Fitness, Student Council President, and national-level athlete with interests in infrastructure, manufacturing, and practical engineering.

EDUCATION

International Baccalaureate Diploma Programme Graduating May 2027

Fountainhead Wockhardt Global School, Maharashtra, India

Higher Level: Mathematics AA, Physics, Business Management

Standard Level: Chemistry, English Language & Literature, Hindi B

TECHNICAL SKILLS

Design and Prototyping: AutoCAD, 3D CAD modeling, sand casting, product development, durability testing

Research and Analysis: Experimental design, Fourier analysis, damping estimation, data analysis, technical writing

Web Development: React, Tailwind CSS, Supabase, API integration

Additional Training: AutoCAD course; public speaking course through Toastmasters

PROFESSIONAL EXPERIENCE

NP Infraprojects India Pvt. Ltd., Bhopal: Engineering Intern 13 Apr – 13 Jun 2026

- Gained practical exposure to AutoCAD, site surveys, construction drawings, and on-site engineering workflows.
- Reviewed financial records and balance sheets; learned accounting software, project documentation, and how departments coordinate infrastructure work.

Dewashish Construction Pvt. Ltd.: Engineering Intern 1 Aug – 5 Sep 2025

- Observed tender preparation and learned how royalties and government requirements affect construction projects.
- Studied technical drawings as a means of communication between design engineers and site teams; developed foundational drawing skills.

ENGINEERING RESEARCH AND PROJECTS

MAXUS Fitness: Founder & Product Lead 2025 – Present

Designed an adjustable dumbbell and kettlebell system with interchangeable plates and a total capacity of 40 kg.

- Led CAD modeling, sand-casting mold design, recycled-metal casting, and prototyping; built the prototype for approximately INR 5,000.
- Tested durability through 50 drops from 1.5 m and assessed corrosion resistance over two months in humid Mumbai conditions.
- Collected feedback from 15 peers to evaluate usability and inform product improvements.

Structural Vibration Monitoring: Independent Research

Developed a low-cost monitoring concept using an accelerometer and microcontroller to detect changes in a beam's vibration against a baseline.

- Analyzed 70 simulated acceleration records using Fourier analysis and damping estimates to investigate stiffness loss and added mass; documented methods, findings, and limitations.

Eddy-Current Braking: Physics Extended Essay

- Investigated how magnet-to-disk separation affects the angular deceleration constant of a rotating aluminium disk through experimentation and quantitative analysis.

Tire Degradation: Mathematical Modeling Investigation

- Applied mathematical modeling and data analysis to investigate tire degradation.

Wavelength: Music and Technology Web Project

- Developed a music-focused web application using React, Tailwind CSS, Supabase, and API integration.

IIT Bombay TechMaster Radiance: Robotics Team Lead | 2025

- Led development, programming, and calibration of an autonomous line-following robot; earned 2nd Place in the Grand Finale.

School Business Fair: Entrepreneurship Initiative

- Developed exhibition and pitch proposals linking business concepts with product presentation.

LEADERSHIP AND COMMUNITY SERVICE

Fountainhead Wockhardt Global School: Student Council President 2026 – Present

- Represent students, chair council meetings, and coordinate student welfare, peer academic support, and school events. Previously Deputy House Captain (Grade 9), House Captain (Grade 10), and Sports Captain (Grade 11).

FWGS Rotaract Club: Board of Directors Member

- Serve on the club's Board of Directors and participate in community service initiatives.

IBrilliant and Youth Academic Tutoring | Since 2024

- Tutored 30+ students in Grades 5–7 in mathematics, science, and English over 6–7 months through individual and small-group support.

Door-to-Door Charity Fundraiser | Since 2024

- Canvassed 150+ households in Chhatrapati Sambhajinagar and raised approximately INR 15,000 for local welfare organizations.

Sustainable Campus Kitchen Garden | Since 2025

- Helped establish and cultivate a campus garden producing fresh vegetables for school support staff.

Community and Heritage Cleanups | 2025 – 2026

- Participated in litter removal at Ellora Caves and co-founded a neighborhood plogging group combining jogging with roadside cleanup; sustained six consecutive weeks of runs.

Orphanage Fine-Arts Mentorship | Since 2024

- Led drawing and visual-arts sessions for children, teaching sketching, perspective, and creative expression.

Youth Road-Safety Education | Since 2025

- Taught Grades 3–6 about traffic signs, pedestrian safety, and safe travel habits through interactive lessons.

Charity Carnival and Stray-Animal Welfare | 2024 – 2026

- Helped organize charity carnivals and essential-ration drives; supported stray-animal care through food and community outreach.

ATHLETICS HONORS AND INTERESTS

Competitive Tennis: AITA, Asian Junior Circuit, ISSO 2019 – Present

- Train 15+ hours per week; competed in AITA Championship Series, Asian junior events, and ISSO Nationals; earned a national bronze medal.

Maharashtra U-17 Netball: Captain | Since 2023

- Captained the team to bronze at the 69th SGFI National Championship in Barmer, Rajasthan. Results also include 1st at DSO and divisional competitions and 4th at state level; selected for the ISSO national squad at the 67th SGFI Games.

Basketball, Swimming, and Sprinting

- Competed at ISSO National and Maharashtra State basketball tournaments; qualified for state-level swimming and earned podium finishes in zonal and inter-city 100 m and 200 m sprints.

International Virtual Debate: Overall Champion | 2025

- Won 1st Place Overall and Best Overall Rebuttal at the Stepping Stones International Virtual Debate Competition.

Model United Nations: Best Delegate Awards | 2024 – 2025

- Best Delegate at Diplomat MUN (Yemen, DISEC) and IIMUN (USA, UNODC); developed working papers, negotiated coalitions, and contributed to committee resolutions.

Creative Arts and Additional Activities

- Create digital illustrations and fictional character designs; share artwork on Instagram. Participated in the Dr. Homi Bhabha Balvaidnyanik Competition in Grade 9.

Languages: English, Hindi, Marathi, Marwadi

Interests: Civil infrastructure, manufacturing, entrepreneurship, robotics, fitness, tennis, and drawing
